1. Description

Our College is the oldest college in this tri-junction area in the field of education since 1956 with the motto to promote the rural education in this backward area. To achieve this purpose, the Management and the Principal of the college motivate the faculty members to enroll themselves in Higher Education like Ph.D, M.Phil and to involve themselves in research activities. So that they can serve in an effective manner and improve their teaching methods as well as the quality of education. The Principal of the college has framed a Research and Development Cell to motivate and guide the faculty members to indulge themselves in research activities. The Research and Development Cell motivates and organizes different activities; for instance: extension lectures, paper presentation in the national and international seminars, workshops and Faculty Development Programmes etc. The Principal of the college continuously reviews the work of Research Committee and tries to promote research by various means such as duty leave and financial assistance.
