1. Description

Classrooms and ICT enabled Seminar Halls are the places where the effective teaching learning takes place. Our college provides spacious, well-lit and well-ventilated classrooms which are designed for healthy discussions, and Seminar Hall is equipped with comfortable seating arrangement for smooth conduct of BA, B.COM sessions. Well-thought positioning in the classrooms ensures proper interaction between teacher and students. Besides, the Seminar Room is used for hosting important co-curricular and extra-curricular events such as guest lectures, group discussions, international programs, speaker sessions, and seminars amongst others.

The twentieth century is the age of information and communication technology. ICT spreads its network in every sector of life. Education is not out of it. The new exposure of digital movement results in a positive impact in India. But it is already known that the digital knowledge of the rural students is lower than that of urban students due to lack of digital exposure and facility. Therefore, the students of the rural area suffer from many communication gaps in different sections. Consequently, in this digital age, they lag behind the other urban students. Our College, situated in a rural area, has adopted various measures to raise the level of digital consciousness and competency of the students to adapt them to the contemporary digital environment. With this objective in view, the college has established the ICT based teaching-learning system. ICT enabled classroom and seminar hall make the mission of college successful. The ICT infrastructure of the college helps to maintain the entire education system fit and fine during the pandemic caused by Covid-19 when the students have been out of campus for a long time. The integration of information and communication technologies can help revitalize teachers and students. The usage of ICT is to complement the classical teaching techniques, particularly in difficult subject areas. To achieve these objectives, teachers need to be involved in the preparation of online teaching resources, multimedia presentation and developing online video lectures. ICT enables students to enjoy enquiry based innovative learning techniques. Owing to the use of ICT tools, classroom learning is not just restricted to textbooks, chalk and blackboard but also, relevant videos, documentary, movies, presentation, online study materials which become an integral part of the daily learning process.
