## Some General Guidelines

1. All the universities may follow a 6-day week pattern to compensate the loss for the remaining session of 2019-20 and the next session 2020-21.
2. In view of the importance of "social distancing", universities may take necessary steps to ensure that the students are given exposure to laboratory assignments/ practical experiments through virtual laboratories, sharing of the recorded visuals of laboratory work and digital resources available for the purpose. The link provided by Ministry of Human Resource Development for virtual laboratories to facilitate the students of science/ engineering/ technology streams may be suitable for such purposes.
3. Every institute should develop virtual classroom and video conferencing facility and all teaching staff should be trained with the use of the technology.
4. The universities should prepare e-content/e-lab experiments and upload the same on their websites.
5. The universities should strengthen the mechanism of mentor-mentee counselling through a dedicated portal on university website to impart timely guidance and counselling to the students. Besides, the faculty advisor and supervisor assigned to each student should maintain regular communication with the students.
