

Institutional Distinctiveness

The Book Bank Facility of our college is an integral part of our college library from where the books are given to all the needy and bright students and a proper record of these books are maintained. Students can make use of these books in their full semester and these books are returned after their exams are over. The college has books of different authors containing all the subjects and every year new and latest books are added, thereby increasing the stock of these books every year. The students of our college are taking benefits of this facility from the last more than ten years.
